Description

Your storefront is a powerful branding opportunity, and most importantly your customer's first impression. Custom Curtains/Window Finishing's are a cost effective way to promote your brand, and can bypass some council approvals. They can be removed and re-installed at new locations, if you're operating a pop-up or temporary store front.

The material is printed using state-of-the-art sublimation printing process that transfers full color images through fabric with intense heat.

The product can include any photos, image or text you require.
