Description

Lightweight, durable and economical pvc mesh event fence is great for construction sites, events, festival crowd control or security purposes. Vinyl mesh has an open weave design that allows wind to pass through and decreases flapping. Many events and sports organizations are adding fence screens to beautify their fences and for further brand exposure and sponsorship.

Products are printed using high-resolution printing, that showcases any images or branding from a distance or close-up.

The product is made from high strength 270gsm PVC mesh, that is UV, Water and Curl Resistant. They are seamless upto 320cm, and finished with eyelits and sewn or fabric welded edges.

The complete product is lightweight, easy to carry and installs in minutes!

Each set includes:

- Fence Wrap/Mesh Banner, complete
